### **Local Agencies Participate in Emergency Exercise**

“I would like to thank our community partners from local emergency services, law enforcement and emergency management for their support and assistance in planning, developing and implementing the drill this past Saturday. I think ARHS and Watauga County demonstrated their commitment to excellence in the successful recovery of the patient and our community’s unique ability to come together during situations like this scenario for a successful outcome.”

– Shawn Peele, Chief – ARHS Police
